## Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

**14** Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ► On March 8, 2022 the issuer declared a cash dividend totaling \$0.25 per share of 10% Series A Cumulative Preferred Stock.  
On June 8, 2022, the issuer declared a cash dividend totaling \$0.25 per share of 10% Series A Cumulative preferred Stock. On September 8, 2022 the  
issuer declared a cash dividend totaling \$0.25 per share of 10% Series A Cumulative Preferred Stock. On December 7, 2022, the issuer declared a cash  
dividend totaling \$0.25 per share of 10% Series A Cumulative Preferred Stock. The issuer has estimated a deficit in both current year and  
accumulated earnings and profits and expects 100% of the cash distributions to be a return of capital.

**15** Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ► The issuer has estimated a deficit in current and accumulated earnings and profits as of 12/31/2022.  
Since the distributions are in excess of estimated current and accumulated earnings and profits, 100% of the distributions are treated as a return of capital.  
Return of capital will first reduce shareholder basis to the extent thereof and any portion of the distributions in excess of shareholder basis will be a  
capital gain to the shareholder.

**16** Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ► An analysis of the issuer's estimated current and accumulated earnings and profits was performed following the issuer's year  
ended December 31, 2022 in order to determine the portion of the distributions that constituted a dividend and the portion that constituted  
a non-taxable return of capital. The result of the analysis was that 100% of the distributions constituted a non-taxable return of capital.

**Part II** **Organizational Action** (continued)

**17** List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based ► \_\_\_\_\_  
§301(c) and §316(a)

**18** Can any resulting loss be recognized? ► The return of capital per share reduces each shareholder's tax basis in the issuer's shares held on the date of distribution. Upon sale or exchange of all or a portion of such shares, the shareholder's resulting gain or loss will be determined using the adjusted tax basis.

**19** Provide any other information necessary to implement the adjustment, such as the reportable tax year ► \_\_\_\_\_  
The reportable tax year of the distributions is 2022. Actual return of capital per share will be reflected on the taxpayer's 2022 Form 1099.
